RE: Clear Creek Prescription

Dear Mr. Snow,

Thank you for your consideration of Western Shasta Resource Conservation District's application for funding the Clear Creek Prescription.

A tremendous amount of time and effort by local landowners and agencies has already been devoted to developing the initial watershed analysis and a road map to achieve our watershed protection objectives. A substantial base of community support and cooperation with participating agencies has been established for the preservation of the Clear Creek watershed.

I trust that you will recognize the value of our landowner-agency partnerships. Your financial support will enable the implementation our joint watershed stewardship efforts.

With your help, our Clear Creek Prescription can help to establish road maps for other community watershed projects. I appreciate your support in our endeavor.

Sincerely,

Rita Cirulis
